DAVIS ON PROBATION.
Boy Who Threw Stick of Dynamite
Thought It Was Sulphur.

Earl Davis, the 17 year old lad who
threw a piece of a stick of dynamite
through a window at 54 Meadow street
Thursday morning, was arraigned be-
fore Judge William A. Arnold in police
court Friday morning on the charge of
injury to private property.
Davis entered a plea of guilty. From
the facts in the case it was ascertained
that Davis did not know that the stick
was dynamite, but that when he threw
it from the yard on Bank street he did
not know that it went through a win-
dow and struck a young man, A. W.
Lancette, who sat at the kitchen ta-
ble eating his breakfast.
It was found that upon the
dynamite did not explode, as it was in
a soft, putty-like condition, just right
for explosive purposes. Judge Arnold
took occasion to say that dynamite
should not be handled so carelessly and
that someone was to blame for per-
mitting this to happen. He said that the
stick was found in a box of sticks of
dynamite around with him and that he
did not know what it was. According to
Davis, the stick had been given him by
an employee of the city, and he was of
the opinion that it was sulphur.

Judge Arnold imposed a fine of \$3
and costs and placed Davis on proba-
tion for a term of two months, the
fine and costs to be remitted if condi-
tions warrant.

CASES NOLLED.
Tolman and Gillis Acquitted of Charge
of Breaking and Entering.

William Tolman and William Gillis,
the two young fellows who were ar-
raigned Thursday evening by Deputy
Sheriff John S. Champlain of South
Coventry on a warrant sworn out by
Arthur Robinson, who lives in the
section of the town known as Barber's
Crossing, for alleged breaking and en-
tering, were arraigned before Judge
of the Peace W. B. Hawkins of North
Coventry about 11 o'clock Friday fore-
noon. The complaint had no case
against the young men, according to
the stories recited in court.
Tolman had been boarding at Rob-
inson's and had eaten his dinner at the
Robinson house as usual, and when he
went home to get his supper he found
the house locked, and the key, which
was usually hung in a certain place,
missing. He therefore went down col-
lar and went up through into the
house, as he supposed he had a perfect
right to do. He got his supper and
stayed there three days. Robinson hav-
ing gone away upon a visit. The Tol-
man fellow maintained that Robinson
had not told him to get out, but had
simply put some of his things out of
the house before he left. Robinson
dinner, Gillis, a friend of Tolman's,
had been at the Robinson house once
with Tolman and neither of them had

disturbed anything. After the facts in
the case had been thoroughly aired,
Justice Hawkins acquitted Tolman and
Gillis.

Early in the fall I began taking it
and since then have been entirely free
from the bronchial attack. I consider
it my duty to thank you but I have

Shot Silver Gray Fox.

F. W. Myers, who lives in the Jeru-
salem district of Windham, has shot
what he believes to be a genuine silver
gray fox. He brought the fox's head
and pelt to the office of the town clerk
in this city and received the regular
bounty. The pelt, which was that of a
very large fox, was a most beautiful
one, and is worth a considerable sum.
Mr. Myers shot the fox near Fenner
Myers' place, his father's home, in
Jerusalem. He is planning to take
the pelt to Boston and New York city
to exhibit it to some of the leading
furriers before disposing of it. If the
pelt proves to be that of a genuine
silver gray fox it will be the first one
that has been secured in this vicinity
in years.

Not Bleached

That creamy-white flour in Gold Medal bags is just as Nature made it.

No chemicals have touched it—The flour is not bleached.

But that flour, Mrs. Housewife, is just the heart of choice wheat.

It isn't the whole flour—It's the cream of the flour.

It is sifted ten times, through ten sheets of fine silk, to pick out the daintiest particles.

That's the secret of it.

When you simply say "flour" you are likely to get the cream mixed with the rest.

To get the cream only, say "Gold Medal Flour." It costs you nothing extra.

Then you get the flour which has come to out-sell every other flour in existence.

If you paid \$10 a sack for it, no man could supply you a choicer flour than this.
